NATIONAL GOLD BANK NOTES OF CALIFORNIA

This rare and actually underrated series is probably the most popular one in the field of "spendable" U. S. Paper Money. It appeals not only to the regular currency collector, but to those interested in *Western Americana*. Collectors of U. S. gold coins also find these notes of interest, as their reverse design incorporates a large vignette portraying all denominations from gold dollars to double eagles. Unfortunately, however, National Gold Bank notes only seem to show up in the Very Fair to Very Good condition range, a situation that "condition hounds" must acclimate themselves to.

- Five Dollars. Nov. 30, 1870. FIRST NATIONAL GOLD BANK OF SAN FRANCISCO.**
 Charter No. 1741. Friedberg 1136. SN K276000. Fine for note, tiny (6mm) marginal tear mended with clear tape upon reverse. Ex Schermerhorn coll. as "Very Fine."
 Above average\$260.00
- Similar. SN K285310. Almost as clean looking, but with an obvious center crease, and a small piece missing at top r., the latter claiming only the very corner of the border design. Like most of these, this note is not as bad as it sounds!..... 235.00
- A third. SN K276732. Strictly VG; the obverse dirty. Ex Schermerhorn as "Fine"... 232.50
- Same bank, but the very rare variety lacking the Charter Number. SN H85804. Not quite VG, and with a few marginal tears. Also ex Schermerhorn as "Fine." Important!.. 290.00
- Five Dollars. Aug. 15, 1872. NATIONAL GOLD BANK OF D.O. MILLS & CO. Charter No. 2014. F-1138. SN L311957.** A Fine looking note, fairly bright in appearance, but with numerous minor paper defects, including a tiny hole l. of center. Still, Schermerhorn at "V.F." Rare 337.50
- Five Dollars. Feb. 15, 1873. FIRST NATIONAL GOLD BANK OF STOCKTON. Without Charter Number. F-1140. SN K930021.** Good plus; margins close; small edge tear at l. end, mended with glassine upon reverse. An acceptable example of a real rarity, seldom seen 350.00
- Ten Dollars. Nov. 30, 1870. FIRST NATIONAL GOLD BANK OF SAN FRANCISCO. Charter No. 1741. F-1142. SN Z784252.** VG in appearance, but with two small tears, one at l. end, and one at l. center; either detrimental. Reasonably priced at..... 330.00
- Ten Dollars. Aug. 15, 1872. NATIONAL GOLD BANK OF D.O. MILLS & CO. Charter No. 2014. F-1144. SN B302427.** Fine and clean looking; choice, in spite of the usual pin-holes. RR 425.00
- Ten Dollars. Feb. 15, 1873. FIRST NATIONAL GOLD BANK OF STOCKTON. Charter No. 2077. F-1146. SN D309771.** Strictly Very Good, with some claims to Fine (appearance wise); the borders wide, but possessing the usual microscopic paper imperfections. The late Bob Schermerhorn paid \$300 for this underrated rarity, when a roll of 1931 "S" Unc. Cents went for \$351..... 415.00
- Same bank, but the very rare variety lacking the Charter Number. SN B233538. Strictly Good, margins close at top and bottom. With two small edge tears mended upon the reverse with glassine, but the best that could be found in twenty-two years of collecting! 385.00
- Same bank; SERIES 1875. below l. Charter Number. Scofield & Gilfillan (instead of the usual Allison & Spinner); large red, Scalloped seal (in place of the usual smaller red Pointed seal); on yellow paper. F-1147. SN D8317 (low, as might be expected). Almost Very Good, the normally cut edges ever so slightly frayed. Clean and presentable looking example of this excessive rarity, of which but one other example is believed known. The Friedberg valuation on this item (in particular) is in reality, factitious.. 525.00
- Fifty Dollars. Nov. 30, 1870. FIRST NATIONAL GOLD BANK OF SAN FRANCISCO. Charter No. 1741. F-1160.** With "in Gold Coin on demand," instead of "in Gold Coin to the bearer on demand," SN 321833. Expertly laminated, this extraordinarily rare bill now presents a dullish Very Good appearance. The restoration work was obviously made necessary by four serious vertical folds, where the paper broke. Certainly acceptable, when one considers that this denomination is by far the rarest in the National Gold Bank series, and that neither the celebrated Philpott nor Schermerhorn colls. ever contained a specimen. Only two other \$50 NGBN's known, F-1160, 1161, both in the same (off the market) collection. Purchased right, and offered right, at.. 850.00
- One Hundred Dollars. Nov. 30, 1870. FIRST NATIONAL GOLD BANK OF SAN FRANCISCO. Charter No. 1741. F-1162. SN 321148.** Strictly Fine, but close examination reveals a tear at either end repaired with glassine upon the reverse. The most serious of these extends in from the left about 1½". Still, a clean, impressive looking note with nice, even margins generally. Only two or three others known. This specimen cost Bob Schermerhorn \$1,000, many years ago.....1700.00
- One Hundred Dollars. June 15, 1875. UNION NATIONAL GOLD BANK OF OAKLAND. Charter No. 2266. F-1166. SN 579587.** Very Good. This otherwise clean appearing bill shows a little soil at r., plus two unimportant edge tears at the r. end, mended upon the reverse with stamp hinges. Excessively rare, possibly unique. Probably the best buy in this listing!1950.00

JAPANESE OCCUPATION PAPER CURRENCY

By

CLOVIS VON T. CRUMMETT, Major AUS (Ret.)

(Note: This article is based on personal experience and material obtained from the Philippine Consul General, New York; Republic of Indonesia Information Office, New York; and the Civil Affairs Handbook on the Philippines.)

THE old saw in which money is described as being the root of all evil proved especially true in the case of the Japanese during their occupation of the Pacific islands during World War Two. Money—their occupation brand of money—brought them nothing but headaches.

Evidence of the now, well-known scheme to supplant native currency with Japanese military notes in keeping with the provisions of the Greater East

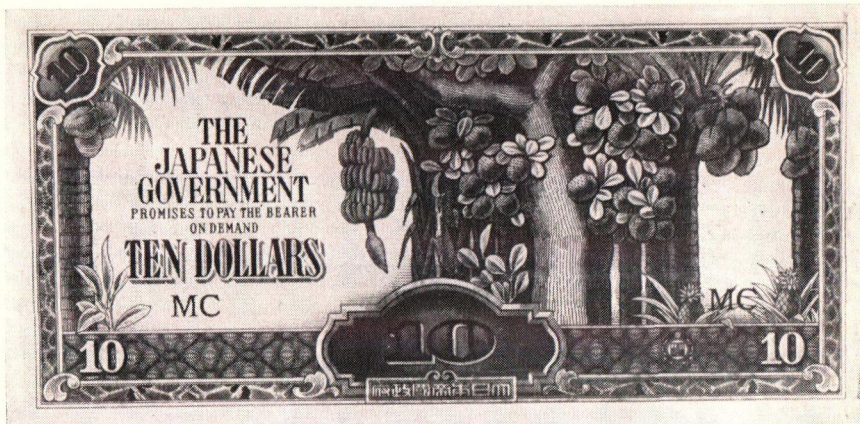

Packets of one centavo notes printed in Japan for the Philippine occupation.

Asia Co-Prosperity Sphere program was literally exploded into the open in Manila early one morning in 1945.

An American artillery unit had leveled its guns on a branch of the Yokohama Specie Bank in an attempt to rout a score of die-hard Japanese who had holed up in the building. The ensuing blast served a dual purpose; the Japanese were expeditiously hurried on to their ancestors and the bank vaults were opened in a minimum of time.

To the American soldiers who cautiously entered the bank shortly after, it was just another mop-up operation, an occupational hazard peculiar to the military. To allied finance officials the shattered bank vaults yielded concrete evidence of the ill-conceived inflationary tactics employed by the Japanese during their temporary role as conqueror.

Ten dollar note issued by the Japanese for its Philippine occupation forces.

Amid the ruins of the vaults and scattered across the dusty, shell-pocked floor the investigators found thousands of small bundles of Japanese-printed occupation bank notes. The contents of broken bundles, notes of every denomination and country in which the Japanese exhibited a proprietary interest, littered the once gleaming stone floor. Thousands of shilling notes, printed expressly for use in British occupied territories, covered the floor like new fallen snow. Still neatly stacked in the vaults were packages of Dutch gulden, Philippine pesos and, significantly, American dollars — Japanese version. The presence of rupees in the vault precluded a serious Japanese interest in India.

The currency, called *apa*, was printed in Japan on inferior quality stock and, as part of the design, depicted native scenes and fruits such as bananas, coconuts and breadfruit. The colors of the notes varied according to country and denomination. Prussian blues, magentas, greens and black predominated. Some notes were produced in two-color combinations and many were of one color alone. The engraving by our standards was fair to poor. Some had serial numbers, others did not. The size of the notes depended pretty much upon the denomination, the Philippine one centavo note being the smallest at $9\frac{1}{2}$ by $4\frac{1}{2}$ centimeters and one of the largest to come to the writer's attention, the American ten dollar bill at 17 by $8\frac{1}{2}$ centimeters.

Five peso note issued by the Japanese for Philippines' occupation.

Ten gulden note made by Japanese for use in Dutch territories.

Derisively dubbed "Mickey Mouse" money by incredulous American soldiers, the currency boomeranged on the Japanese. Resentful but enterprising Filipinos made passable forgeries of the new peso notes and thus added confusion and chaos to an already intolerable financial situation.

During the occupation, banks, business houses and merchants defied the Japanese by refusing to accept the currency. To this day Filipinos in remote jungle provinces who accepted the occupation notes for goods and services still have hopes of redeeming the worthless money. What appeared to be an organized conspiracy to thwart the Japanese in their attempts to force this currency on the people resulted in the complete and spectacular breakdown of the Philippine financial system.

The cost of living increased 650 times from 1941 to 1945 while salaries increased only 16 times.

After Manila fell to the American Army, ragged Filipino children, quick to capitalize upon the traditional American mania for souvenirs, cleaned the streets and open banks of the valueless notes and peddled packages of them to soldiers for cigarettes, candy — and good American dollars. The Japanese, as it turned out, were not the only ones to try to make a quick dollar on the occupation notes.

One shilling bill, printed in deep blue, issued by the Japanese for its occupation of British territories.

A.N.A. Board Meeting, Jan. 31-Feb. 1

At the A.N.A. Board of Governors meeting attended by 100% of the elective officers and Governors along with the Editor, Advertising Manager, General Secretary and Historian, some of the actions taken were:

A Life Membership was conferred on Henry Schumacher, A.N.A. No. 3932.

Hereafter complaints against nonadvertisers will be processed by the General Secretary and those concerning advertisers, by Advertising Manager. When facts are completely collected, the files are then to be turned over to the President for handling according to the bylaws.

A. I. Martin was named General Chairman of the Houston convention with the Shamrock Hotel as headquarters.

San Diego received the nod for the 1967 convention.

Starting in 1964 no convention committee may order medals without the sanction of a newly formed Medal Committee. Appointed Chairman was Arthur Sipe. This committee is to have a recognized artist working with it.

Official congratulations were dispatched to Librarian John J. Gabarron on obtaining the special library postal rate.

Treasurer Harold Klein was appointed to work with the Display Case Committee. A.N.A. cases will not be loaned to anyone in the future.

The General Secretary acknowledges the assistance he had received from officers in obtaining an educational postage rate for mailing *The Numismatist* from Wichita, particularly Ellis Edlow, Dr. V. Clain-Stefanelli and Glenn B. Smedley.

The Board set up a junior exhibit classification at the Denver convention, with A.N.A. juniors from seventeen to twenty being eligible. Juniors may exhibit in regular classes, if they desire, instead of the new class.

The Board authorized the preparation of a fifty year certificate for all clubs and corporations not eligible for the fifty year gold medal.

The President is to appoint a committee to develop and report on a preliminary working plan for all phases of a national home and headquarters for the A.N.A. financing arrangement, selecting a site, fund raising and other basic considerations. Charles M. Johnson was made Chairman.

Installation of IBM in the General Secretary's office is a strong possibility. Its use will facilitate solving of many of the routine duties of the office.

The subject of judging exhibits was explored thoroughly and various recommendations were considered. Herbert Bergen was appointed Chairman to work with the General Secretary and the Exhibit Chairman of the Denver convention. Bergen is also to see that proper rules are written and published.

Importing and Holding Gold Coins

Under Section 54.20 of the Treasury Department Gold Regulations any gold coin which was made before April 5, 1933, if not mutilated, is considered to be of recognized special value to collectors. Since no United States gold coins have been issued since April 5, 1933, all genuine and legally issued United States coins are considered to be rare.

However, foreign gold coins have been made since that date, and they are presumed not to be rare and their possession in the United States is prohibited in the absence of a special determination that the particular coins have a recognized special value to collectors. This determination is a factual one made by the Director, Office of Domestic Gold and Silver Operations after consultation with the Curator of Numismatics at the United States National Museum, who is the governmental authority on the subject. No restrictions have been placed upon dealings in gold coins determined to be rare within the United States.

Executive Order No. 11037 of July 20, 1962 and Section 54.14(a) of the Treasury Department Gold Regulations, as amended effective July 23, 1962, provide that gold coins having a recognized special value to collectors of rare and unusual coin, as set forth in Section 54.20 and as explained above, may not be acquired and held outside of the United States by persons subject to

the jurisdiction of the United States. Persons subject to the jurisdiction of the United States who owned rare gold coins abroad on July 23, 1962 were given, by Section 54.82 of the Regulations, until January 1, 1963 to sell any rare gold coins they hold to a person not subject to the jurisdiction of the United States, or to import them into the United States for holding within the United States or for sale to a Mint institution, without a special Treasury Department import license. The importer was required to produce evidence satisfactory to the Collector of Customs that the coins in question were owned by him at the time of the issuance of the Order and Regulations.

Effective July 23, 1962, no other gold coins, whether or not rare, may be purchased abroad and imported without a special Treasury Department license issued by this office. It should be noted that the Order states that licenses are to be issued only in exceptional cases.

Each application for the acquisition and importation of gold coins will be decided upon its merits, with reference to the numismatic status of the coins, and the purpose for which it is proposed to be imported. Licenses will be issued only for the importation of gold coins of exceptional numismatic value.

— U. S. TREASURY DEPT. *Office of Domestic Gold and Silver Operations*.

ADVERTISING NOTES

By

EARL HUGHES, A.N.A. No. 33599

SOME DAY the complete story of advertising will be written. When it is, one chapter will have been written already in numismatics, by her advertising notes. It remains only for the numismatist to compile the notes, "read" their history and record their story.

The 19th Century found a country on the move, but a people who spent plenty of time getting there. Nearly everything that our adventuring forefathers picked up was treated as a letter from home. Advertising notes served the advertisers well, when everyone was comparing his notes by his notes — and counterfeit detectors. In the "silent" days, even a man's entertainment was partially derived from these tel-a-notes. What an opportunity to get close to a fellow's pocketbook!

Many of the bank notes had left unpleasant memories to the recipient of the ad-notes. Now some of those very notes had been revived and used for advertising purposes — commercials. Their promise to pay became a promise to sell. (The ingenuity of man!) They probably were no more prized than the commercials of today. Many of them were "turned off" — not many survived.

As skillful manipulators made counterfeit notes to pass as genuine, so the advertiser created a facsimile, or fantasy note to serve his purpose. Some of them furnished entertainment with their commercials. It required the whole family to figure out the message of A. Williamson, Cynthiana, Ky. (See Figs. 1 and 2). When this puzzler was solved, the family knew that by buying silver and copper tipped boots and shoes for the children it could save enough in one year to purchase the parents' shoes.

The advertisers offered many things, from "likenesses" to pantaloons, to "the most pleasant cure for the itch." Coffee mills filed to andirons neatly mended were services offered. And their want ads ran from money to buffalo bones.

The numismatic chapter of the advertising story should be seen as well as heard. These notes were meant to meet the eye, and description alone cannot do them justice. The purpose of this article is to show typical examples, in an effort to "sell" numismatists on a second look at this sideshow phase of numismatics. Each collector should record his "notes" on these advertising notes with the clearing house — the numismatic magazines, and some day the story may be told in a near complete reference work before such notes disappear forever. The representative notes illustrated were not included in recent lists which have come to my attention. (See *The Numismatist*, Dec. 1958 and *The Numismatic Scrapbook Magazine*, Jan. 1958 and July and Sept. 1960 for listings.)

1. State bank note (Fig. 3) overprinted on the obverse. The note is an 1854 \$2 Farmers and Merchants Bank of Memphis, Tenn. The overprint in red reads, REAU CAMPBELL & CO., CLOTHIERS OF THE PERIOD! MERCHANT TAILORS AND SHIRT MANUFACTURERS. NO. 14 WHITEHALL STREET, ATLANTA — — GEORGIA.

2. State bank note (not illustrated) with two ads in green on the reverse. The note is an 1862 \$1 Farmers and Merchants Bank of Greensborough, Md. One ad reads CLAWSON'S SALOONS, 523 & 525 RACE ST. PHILADELPHIA. The other: INLET HOUSE, ATLANTIC CITY, N. J.

3. Territorial bank note overprinted on both obverse and reverse. On the face of an 1856 \$2 note of The Drovers Bank, Salt Lake City, is the red overprint of a fish (Fig. 4). On the reverse, in green (Fig. 5) is: WILLIAM KIDDER, DEALER IN FRESH AND SALT FISH — OYSTERS AND GAME — IN THEIR SEASON. 202½ EDMOND ST., ST. JOSEPH, MO.

4. Confederate Treasury note (not illustrated). On various denominations, THE GREAT BROAD GAUGE, ATLANTIC & GREAT WESTERN ROUTE. (Genuine and facsimile Confederate notes illustrated in *NSM*, Jan. 1958.)

5. Southern State note (not illustrated). Virginia Treasury note, \$1, Oct. 21, 1862. On reverse in red: VIRGINIA EXPOSITION, RICHMOND, OCT. 3D TO NOV. 21ST, 1888. Incidentally, this was an error note, since the date was originally printed "Nov. 21st to Oct. 3d" and was then reprinted with the correct date. Facsimile Southern States notes have been used also.

6. Combined advertising and scrip note (Fig. 6). This note was issued in the State of Louisiana and bears the imprint of W. R. SMITH, ENG. 99 BEEKMAN ST., N. Y. The advertisement reads: GEO. W. GREGOR & CO. DEALERS IN WATCHES, JEWELRY AND SILVERWARE, GUNS, PISTOLS, CUTLERY & FANCY GOODS. COR. CAMP &

CANAL STS. NEW ORLEANS. Overprint in red reads: PAYABLE IN CURRENT FUNDS, IN SUMS OF FIVE DOLLARS OR MORE, ONE DOLLAR. The word CENTS is overprinted under the "100" counters, making it read 100 CENTS. The note is numbered but not dated.

7. Commission scrip (Fig. 7). 25¢ issued by J. C. Maloney's Shoe Store, Ravenna, Ohio. (Patent applied for by Tiffany Bro's. Buffalo, N. Y.) The object of commission scrip was to advertise a business and to compensate parties circulating the same. The bearer was a "walking newspaper," paid by the ad which he bore. The vignette on this scrip is of "Odin," after a painting by Sir Edwin Landseer.

8. Advertisement resembling a bank note (Fig. 8) Chases Daguerrian Bank, No. 247 Washington Street. City of Boston, Massachusetts. WILL PAY ON DEMAND LIKENESSES SINGLE OR IN GROUPS IN ANY WEATHER, ETC. Printed signatures of E. B. and L. G. Chase, and with the imprint of W. W. Wilson Sc. & Pc. Boston. The motto of numismatists concerning these old notes might well be that held by the eagle on this one . . . "Secure the shadow ere the substance fades."

U. S. ASSAY COMMISSION MEETS

The 1963 U. S. Assay Commission, made up of citizens plus ex-officio Governmental representatives, gathered February 13 in the Philadelphia Mint for the annual "Trial of the Pyx." There the Commissioners carefully counted, weighed and tested for silver content generous supply of coins accumulated during 1962. No coin was discovered that was outside the law, and none that was beyond the established narrow limits of tolerance.

Miss Eva Adams, Director of the Bureau of the Mint and her staff, and

Michael Sura, Superintendent of the Philadelphia Mint and his employees, set examples of friendliness, cooperation and efficiency. They were very helpful, assisted in many ways and were unobtrusive unless needed. The American Nation is and should be proud of our money making people and the product they manufacture.

Commission members, found suitable after Secret Service and Federal Bureau of Investigation scrutiny, are finally selected by the President. Honorary in nature, the work per-

"Education Through Numismatics"

NATIONAL COIN WEEK, APRIL 27-MAY 4

Both individuals and clubs should be completing their plans for this year's National Coin Week. Entry blanks are being mailed as rapidly as requests are received.

To you who have not made specific plans for the big week, remember that this is the largest competitive event in numismatics. Both a club meeting and a national convention are limited in scope. National Coin Week displays, from border to border and coast to coast are unlimited in their effect and are of tremendous benefit to the promotion of your hobby, its clubs locally and its Association nationally.

Let's make this the largest exhibition of coins in the Association history. — JACK R. KOCH, Gen. Chmn., National Coin Week, Box 802, Moses Lake, Wash.

NOTES FROM THE LIBRARIAN

The requests for books continue to pile up, and many members must wait for books to be returned so their requests may be filled. The library has plenty of shelf room, and it would be a very nice gesture for members to help build up our library by donating duplicates or books which they do not need. Many of the popular books have back orders against them — as many as ten for some. We need any and all kinds of books. They need not be in perfect condition, as we will rebind them if necessary.

Desperately needed is *Counterfeiting*, by Laurence Dwight Smith, and Stack's *Numismatic Review*, Vol. 1, No. 1. We will pay a fair retail price for these two items.

The following books are still available for sale:

<i>Coins of Japan</i> , by Munro.....	\$25.00
<i>The Coinage of Siam</i> , by LeMay	7.50
<i>Coins of New Jersey</i> , by Maris	25.00

Please return borrowed books on time. Remember, many others are waiting for the books which you have.

CHICAGO CSNS CONVENTION APRIL 26-28

The Chicago Coin Club promises a "Chicago Style" show as it plays host to the Central States Numismatic Society's 21st annual convention April 26 through 28, at the Chicago-Sheraton Hotel.

Occupying two floors of the ultra modern Chicago-Sheraton, the three-day show will be big in every way. In addition to over 10,000 square feet of exhibit space, the show will feature a bourse made up of America's finest coin dealers and a two-session auction conducted by the Rare Coin Company of America, 77 W. Washington St., Chicago 2. To make doubly sure that interest always runs high, Chairman Harry X Boosel, the man who put the "click" in the 1961 three-day Fall Festival in Chicago, has a whole bag of surprises. One of these is a big twenty gold piece drawing.

Exhibitors, in all classifications, will vie for some of the finest awards ever offered. If you have not yet reserved exhibit space, be sure to do so by writing Exhibit Chairman Tom Nolan, 720 Buena Terrace, Chicago 13, Ill.

Feeling that the backbone of any convention is the auction, the Rare Coin Company of America is seeing to it that the catalog contains not only prize items but something for every taste and budget. The first auction session will be on Friday and the second on Saturday. Plenty of catalogs are promised, and special efforts will be made to see that successful bidders can pick up their material quickly and easily.

The Educational Program on Saturday will be an interesting feature of the affair. Glenn Smedley will moderate the three speaker program. Simeon Wilson, well-known Chicago Postal Inspector, will give an illustrated talk on forgery and counterfeits, while CSNS's Doc Epps will explain the importance of chemistry in coin holders. A coin-slide quiz will be conducted by Mike Dolnick, A.N.A. Custodian of Slides, in which everyone will have a chance to run his knowledge into some fine prizes.

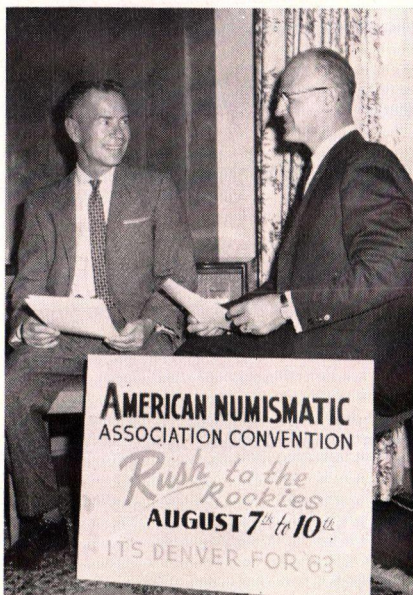

There will be activity aplenty to interest the ladies attending. Where-to-shop and what-to-see-and-do information will be provided, as well as a lounge for coffee, cards, and visiting.

The Oklahoma-Kansas Numismatic Association gave about 50 showings of two sets of Visual Education Committee slides at its October 19-21, 1962, convention. Great interest shown indicates repetition of this feature at future conventions.

Ladies will especially enjoy a special Fashion Show brunch in one of Chicago's leading department stores. Scheduled for Saturday, for the latter only a limited number can be accommodated. Please make advance reservations by postal card addressed to Mrs. Marjorie Baker, 5445 S. Harper Ave., Chicago 15, Ill.

The Chicago-Sheraton, scene of the convention, is located in the heart of Chicago's "Magnificent Mile" and is but a step away from fine stores, theaters, and restaurants. It offers the finest service at thoroughly reasonable rates . . . no extra charge for in-the-hotel parking. But get your reservations in now, as space is not unlimited. Write Chicago-Sheraton Hotel, 505 North Michigan Ave., Chicago 11, Ill., and mention that you will attend the CSNS convention.

DENVER PREPARES

L. to r., Denver A.N.A. Bourse Committee Chairman Walter Laub and Alex Pope tabulate requests for bourse tables from dealers throughout the country.

Numismatic Vignettes

■ At a recent meeting of a thirty-year old club, a reconstructed sheet of four obsolete bank notes was exhibited with the comment that the sheet was "to prove they are not phony." Although rare, plates still exist for a few of the old bank notes; so we submit that full sheets, cut or uncut, of certain notes can be produced at will. These would be in the same class with restrikes from old coin or medal dies, and would not be easily detected. One extant plate is for \$20, 20, 50, 100 notes of the Traders Bank of the City of Richmond.

■ Great oaks from little acorns grow. A statement of the public debt as of October 31, 1865, shows the surprising figure of over twenty-six million dollars in fractional currency outstanding.

■ Early in the Civil War, Secretary Chase urged the formation of a national bank which could issue paper currency as an aid to government finances. Although the National Banking Act became law on February 25, 1863, no national bank notes were issued until about the first of January, 1864. By July 1 the amount issued was near 26 million dollars, and when the war ended the following year only about 147 million had been issued. Since the public debt was about 2,800 million dollars at the war's end, it can be seen that the new national notes were of very little aid in financing the four year conflict.

■ Coming across the two volume *Coin Collector's Manual* by H. Noel Humphreys, London, 1897, we were curious about what it would contain on U. S. coins. To save you the trouble of looking, here it is, in full: "The independent money coined by the newly-formed republics of North and South America is of too recent date

to require description here." What — not even the 1804 dollar? That book won't sell! Still, it does contain some beautifully engraved plates of ancient coins.

■ Collectors of U. S. notes can expect to add a new one to the series soon. It appears that the last step is about to be taken toward an all fiat paper currency with the substitution of one dollar Federal Reserve notes for the present silver certificates. The corollary, of course, is that silver certificates and the silver dollars which sustained them will disappear from circulation. While most of us don't want to use silver dollars, it is nice to know that we can get them. And there is something solid about a silver certificate that is backed by the shiny metal "payable to the bearer on demand." The gold dollar is gone and soon the silver dollar will be only a collector's item; our dollar will have been degraded from something solid — something real — to a mere crossed S on the typewriter and bookkeeping machines.

■ While not one of the long-time members of A.N.A., D. O. Barrett (19708) rendered an unusual service to numismatics as founder and curator of the PhilaMatic Center at Boys Town. Prior to his retirement from the engineering profession, he was a recognized authority on semi-diesel engines and was a Fellow of the American Society of Mechanical Engineers. Recently the Nebraska section of ASME saluted Barrett, now in his second retirement, for fifty years of membership in the Society. Surely we speak for all numismatists who know this venerable philanthropist in offering congratulations and best wishes to Dwight O. Barrett — "D. O." to many of us. May his fifty-year pin shine brightly for many years! — GLENN S.

Dr. J. Randle Luten, Jr., President of the Arkansas Numismatic Society, reports that progress is being made with plans to house the million dollars in Confederate notes donated by Harry B. Solmson of Memphis, Tenn., in the Old State House at Little Rock. The notes will be placed under glass in forty swinging panels, both sides of the panels being used for economy of space and ease of viewing.

The collection is in the custody of the Arkansas History Commission, of

Dr. John L. Ferguson, I., examining one of the ten original Arkansas Treasury warrants engraved plates held by Dr. J. R. Luten, Jr. Already in the possession of the Arkansas History Commission, these plates will be added to the Solomon collection.

which Dr. John L. Ferguson is Executive Secretary. The Steering and Fund Raising Committee is headed by A.N.A. Governor Matt H. Rothert, assisted by Arkansas Numismatic Society past Presidents S. W. Freeman of Newport, Ed Leaming of Little Rock and Richard McGille of Pine Bluff. Carlton Armour, W. M. Hackett and Howard Stebbins, all specialists in fields related to the collection, form the Committee on Display and Arrangements.

Donations of money or of numismatic items which can be sold at auction have been received, but more are needed for the estimated \$1,000

required to catalog, frame and display this outstanding collection. An auction of such items will be held at the 15th annual meeting of the Society to be held May 11 at the Lafayette Hotel in Little Rock. Mrs. Nina Willis, 1108 W. Markham, Little Rock, is the Chairman. Donations may be sent to Matt H. Rothert, Box 5861, Camden, Ark.; to Dr. John L. Ferguson, Old State House; or to Dr. J. Randle Luten, Jr., 917 W. Second St., Little Rock.

The Society wishes to make clear that it is not attempting to purchase Confederate notes, but only raising funds for housing and displaying the Solmson collection.

Panamanian Exhibit

Mrs. Betty de Endara, a member of the Inter-American Women's Club of Panama, visited in Homewood, Ill., last April and was impressed by the Venezuelan exhibit in the Homewood Public Library. Result: She and Mrs. Paul Otis of the Club of Illinois Numismatists started planning a Panamanian exhibit for 1963 National Coin Week.

In keeping with the theme "Education through Numismatics," the exhibit will attract interest in the Homewood Public Library during the entire month of April. It will include a collection of current Panamanian coins, the flag of Panama, maps, photographs, magazines, booklets, dolls in the typical dress of Panama (the La Pollera and El Montuno), and a small set of drums made of balso wood and squirrel skin. One "mola," and a "mola" made as worn, gives a clearer example of the delicate work in the clothing worn by the San Blas Indian doll. There is a small rancho or hut like those in which the Indians grind rice and cook. Also will be the following items that were found in Indian graves over 400 years old: an Indian urn, a small water jar, a small jug, a mallet used for grinding, and a type of hoe used by the Indians to till the soil. The material for the exhibit was sent by the Women's Club in Panama to Mrs. Otis, whose Venezuelan exhibit last year won her several honors in addition to recognition from the Venezuelan Government.

New Medals and Tokens

To commemorate the opening of the Trans-Canada highway, a medal has been struck by Canadian Artistic Dies and distributed by Canadian Art Medal Distributors Reg'd, P. O. Box 203, Sherbrooke, Quebec. Of a limited issue of five hundred .999 silver and a thousand bronze, size 34, the piece shows the official sign of the highway encircled by ten maple leaves for the ten provinces joined by a cord and legend around TRANS-CANADA HIGHWAY ROUTE TRANSCANADIENNE. On the reverse is a laurel wreath and within it TO / COMMEMORATE / THE / OFFICIAL OPENING / "TRANS-CANADA" / HIGHWAY / -1962-. This is a private issue, no official medal having been made.

The Nyack, N. Y., volunteer fire department, serving three communities, celebrates its centennial this year. As part of the commemoration a half dollar trade token has been issued and is available as long as five thousand last at 60¢ each or selected glove handled specimens at 80¢ each. Address orders and send remittances to N. F. D. Coin Fund, 31 La Veta Pl., Nyack, New York.

A.N.A. Decrees Its New Booklet Be Given New Members

All future new A.N.A. members will receive copies of the recently issued 48-page booklet *Introduction to Numismatics* as part of their immediate rewards from their membership. The booklet is a symposium by nineteen writers on separate fields of numismatics and is available for \$1.00 each from Librarian John J. Gabarron, Box 3011, Lincoln 10, Neb.

Newspaper Numismatics

A news story of February 14 claimed Manning Weingarten of Roselle, N. J. had found a "copper colored" quarter in his supermarket. He showed the coin to a dealer who theorized "a little copper got into the first batch of quarters." The piece is dated 1963.

Another newspaper reported the purchase of a "1913 Liberty head 5¢ piece" for \$20.00 by a Hoosier collector. Looks like the buyer "didn't beware," as the coin is reported to be an altered date, thus dropping steeply to a 5¢ valuation.

Payne Is Acquitted

Peter B. Payne, well known California coin dealer, was recently found not guilty of \$15,000 embezzlement by a jury at the conclusion of a two week trial. Other charges against Payne had been dropped earlier.

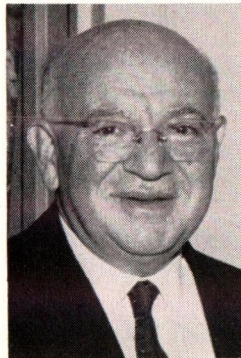

Commemorative Medals Are Sought in Congressional Bills

Identical bills calling for a Padre Junipero Serra medal commemorating his 250th anniversary of birth have been introduced by the California Senators and Representatives.

Indiana's 150th anniversary of statehood will be memorialized by the striking of medals, if the bill (H.R. 3488) offered by Congressman Bray is approved.

Mrs. Cora Henderson Confined to Her Home

Mrs. Cora Henderson, widow of the late Dr. John Henderson, A.N.A. President 1909-1911, is confined by an accident to her Columbus, Ohio, home. She and her husband attended every A.N.A. convention for a long period of years, and actively participated in its many functions. Historian Jack W. Ogilvie says. A.N.A. officials and countless friends send their good wishes for a speedy recovery.

Moritz Wormser Prize Winner Is Named by ANS

Pierre A. MacKay, of the University of California, Berkeley, has been named the recipient of the Moritz Wormser Memorial Prize for his paper entitled "The Silver Tetradrachms of Macedonia in the First Period of Roman Domination" presented at the 1962 Summer Seminar of the American Numismatic Society. From the six other students who entered their papers in the competition, Frank D. Gilliard, also of the University of California, received honorable mention. The prize was donated by Charles M. Wormser in memory of his late father, Moritz Wormser, who was a member of the Council of the American Numismatic Society for a long period, and American Numismatic Association President from 1921 to 1925.

More Ancient Coins Being Fabricated

Recently the International Association of Professional Numismatists through good offices of its President Xavier Calico and Secretary Emil Bourgey alerted dealers and collectors of another hazard — copies of ancient and medieval coins "so exact that even the experts have difficulty in distinguishing them from the originals." No permanent (or any other) identify-

ing mark was on these pieces. The manufacturer's distributing firm is Coin Reproductions, 9 West 42nd St., New York 36, N. Y., operated by Bob Siegel. Both the Professional Numismatist Guild and *Coin World* joined efforts to get these marked plainly with some sort identifying symbol, and Siegel agreed.

To check out the several thousand pieces already placed in the market, Siegel gives points that will differentiate between the copies and genuine coins, according to *Coin World*:

On the phony piece, a shiny surface will appear after rubbing with cloth or finger tips. This does not occur on the genuine piece.

Weights are different.

The metals are completely different.

Upon being dropped on glass or steel, the fake piece will thud instead of ring.

Suggestions as to the solution will be welcomed by the firm.

False Shekels

Dr. B. Kirschner, 19 1Bn Shaprut St., Jerusalem, Israel, calls attention to copies of Jewish silver shekels currently being offered for sale at low cost. "There are considerable quantities of shekel falsifications leading astray collectors, even museums and scholars, because these forgeries mostly are excellently executed," he reports.

Lahrman Sale Report

Another successful auction sale is reported by A. Kosoff of Encino, Calif. The sale, held in conjunction with the convention of the Numismatic Association of Southern California at Los Angeles, Jan. 30 - Feb. 2, featured the collection formed by Lee G. Lahrman of Park Ridge, Ill.

The tempo was brisk right from the start as the proof small cents went to new record highs, the 1877 fetching \$1350.00 after a copper-nickel 1864 proof had sold for \$525.00 on an estimate of \$375.00. The 1867 proof went for \$270.00, 1869 at \$550.00 (estimated to bring \$325.00), 1871 \$400.00, 1872 \$475.00.

That half cents are coming into their own was also evident with spirited bidding sending all of the varieties to new record levels. A 1795 G-3 sold for \$525.00; the 1797 G-1 brought

\$420.00. Proofs went at \$500.00 each for the 1840 G-2, 1842 G-2, 1843 G-1, 1843 G-2. An 1857 G-1 brought \$475.00.

Large cents, always popular with Kosoff's clients, did very well. A very fine Chain cent went for \$775.00, a Liberty Cap brought \$620.00. The 1796 Liberty Cap and Bust types proved popular at \$375.00, \$400.00 and \$475.00 each. Several 1799s went for \$725.00, \$475.00 and \$265.00 respectively for very fine, fine, and very good specimens. An 1804 VF-35 went for \$575.00 and was an excellent buy, a higher price having been expected. Proof large cents set new records down the line: 1840 N2 \$710.00, 1845 N15 \$960.00, 1852 N18 \$525.00, 1855 N11 \$910.00. A 1796 half dollar went reasonably at \$3500.00 and the 1864 small motto two cents proof, \$3750.00. Proofs in all series continued their upward march. Nickels, dimes, quarters and finally the half dollar proofs, which had been lagging behind, all kept pace.

Early gold and the mint marked pieces attracted competition as did the proofs. A new record of \$4300.00 was set for the 1915 matte proof double eagle. Highest price was claimed for the set of white cents said to be unique when it was knocked down for \$15,000.00.

The sale which Kosoff had estimated to bring over \$150,000.00 went beyond expectations, the total approximating \$183,250.00.

A Library edition is being prepared for early release. These editions, now collectors' items, are handsomely bound, gold-lettered, and include each price realized printed alongside the description of the lot. The ready reference has proved valuable to collectors and dealers alike. Prepared in very limited number, the special library edition is expected to be oversubscribed. — A. KOSOFF

Boosts Life Memberships

Dear Sir:

Annually I am reminded that, if I could relive and redo certain things, I would apply for A.N.A. Life Membership. This is my twenty-sixth year and I fear it is too late to gain any financial savings now. I consider it not only a privilege but also a kind of honorable distinction to affix a Life Member number after your name. This I would advise for new and younger members.

Let me say what a fine job all the executives are doing to make the

A.N.A. the very finest of its kind in the world.

The Motto Again

The Arizona House of Representatives tentatively approved a memorial to Congress asking that the Treasury issue no more \$1.00 bills that do not carry the motto "In God We Trust." Federal officials were quoted as saying that as new plates are made for the "dry" printing process, eventually all paper money will have the slogan on it.

Coins for Cancer

"Coins for Cancer" is a project originating with and conducted by I. J. Senturia and the Franklin County (Ill.) Coin Club, P. O. Box 206, West Frankfort, Ill. Coins and other items of numismatic value are donated by men of good will to be auctioned off March 31, with the entire proceeds going to the American Cancer Society.

The program was discussed at the recent A.N.A. interim Board meeting and "Because of previous policies of the A.N.A., they do not feel that they can sponsor such an event but are happy to give their blessing," according to the A.N.A. General Secretary. *The Numismatist* offers its services to

publicize such worthy efforts to curb the major killer — cancer.

Arkansas Convention May 11-12

Wonderful plans are buzzing around for the fifteenth annual convention of the Arkansas Numismatic Society in Little Rock on May 11-12. The Greater Little Rock Coin Club will be host, and one whole floor of Hotel Lafayette in the downtown area has been set aside for our activities. A large hall, separate from the bourse, will be the site of two auctions and other activities. Exhibits will be in the foyer, and there will be an appraisal table to which the public will be invited to "bring your old coins." About an even dozen of the original thirty-five charter members will be feted at the Saturday evening banquet, to which all members are invited.

As an aid to publicizing the event locally, J. V. McDermott's 1913 Liberty Head nickel will be displayed in a downtown bank the week before. On one day, it will be taken to a local TV by a Wells Fargo armored truck with a police escort. Naturally, the caravan will travel down Main Street. Everyone is working hard to make this the best show yet, and we are looking forward to seeing our many good friends from neighboring states. Please do not disappoint us. — MRS. J. P. WILLIS, Vice Pres.

A.N.A. Convention Papers

The time is near for submitting your numismatic literary work to the Papers Committee for the convention to be held in Denver this year. Members are invited to write articles which will be submitted to the Editor for consideration of publication in *The Numismatist*. No promises by the Committee or the Editor of publication of your efforts at this time but rest assured every consideration of your work will be given careful study.

We need many more A.N.A. members to give serious thought to submitting papers. Among the thousands of members there are many who are capable of writing interesting articles that others would enjoy reading. Please submit your contribution to the chairman as soon as possible. Do your part for the Association.

Many articles have been published this year and many more need to be coming to the Editor. All manuscripts submitted will be eligible for publication and if published, are eligible for consideration in the Heath Literary Awards competition. The awards are given annually to the outstanding contributors, and are presented at national conventions.

All numismatists at one time or another have felt that they would like to write an article for the entire A.N.A. to read. Now is the time to get to work on your particular subject. With the tremendous number of collectors who are joining A.N.A. monthly, a majority should be seeking numismatic knowledge. This is the opportunity of those who know to share this important wisdom with their colleagues. — RAY O. LEFMAN, Chm. Papers Committee, 1963, 412 S. Van Brunt, Kansas City, Mo.

TOKEN SOCIETY'S PROPOSED CODE OF ETHICS

(Editor's note: The following is printed as a news item of general interest. Neither the A.N.A. Board of Governors nor any other numismatic society has either considered this code or taken any action thereon as of this date.)

A code to control reproductions of numismatic items has been proposed for adoption by all numismatic organizations and publications. This code was prepared by the Committee on Ethics of the Token and Medal Society after an extensive study of the effect on numismatics of various forms of reproductions.

The TAMS committee proposing the code consists of Chairman Eric P. Newman, Ernest F. Cooke, George J. Fuld, Charles V. Kappen, and Russell Rulau. This committee was appointed by James J. Curto, TAMS president.

The code includes as banned items reproductions regardless of whether they are marked Copy, Restrike, or otherwise, and covers coins, paper money, tokens, medals, political items, transportation items, store cards, etc. The committee feels that with the modern methods of reproduction the sanction of commercialism for any type of reproductions will be a detriment to numismatics and urges prompt adoption of the code. The committee desires to be notified of the adoption of the code by any organization or publication which does so. Text follows:

CODE OF ETHICS ON REPRODUCTIONS

The Committee on Ethics of the Token and Medal Society urges the adoption by numismatic organizations and numismatic publications in North America of this Code of Ethics on Reproductions.

I

POLICY

The production and sale of reproductions of numismatic items is detrimental to numismatics as a science, as a hobby, and as a business. Reproductions have been and are initiated, produced, and sold primarily for profit motives. They continue to give rise to fraud, deception, and doubt. Above all they continue to cause a loss of respect for and a diversion of interest from genuine numismatic material.

II

BANNED ITEMS

A banned item shall be an item included in any of the following categories, subject to the exceptions contained in Section V:

- (A) Any nongovernmental reproduction having one side or more in general imitation of a numismatic item theretofore existing.
- (B) Any imaginary piece or fantasy pretending to be a numismatic item which theretofore might have existed. The date, if any, on such a fantasy shall be a conclusive presumption of such pretense.
- (C) Any numismatic item the ownership or possession of which is illegal.

III

NUMISMATIC ITEMS

- (A) A numismatic item shall constitute a coin, token, medal, pattern, paper money, political item, transportation item, store card, and any other item generally included in the field of numismatics.
- (B) A numismatic item shall include items from any geographical area or any period, unless specifically restricted at the time of the adoption of this code by the organization or publication adopting it.

IV

GUIDES

It shall not affect the status of a banned item:

- (A) Whether it is a struck piece, a cast piece, an electrotype, an alteration, or a fabrication made by any other means.
- (B) Whether the dies or molds, if any, from which it was produced originated through direct cutting, punching, casting, transfer hubs, spark erosion, impact or any other means.
- (C) Whether it is marked "copy," "restrike," "fantasy," "Kettle," or any other differentiating words, letters, or symbols, either raised, incuse, or in another manner.
- (D) Whether or not it is made of any particular material.
- (E) Whether or not its nature was or was not originally or at any previous occasion disclosed.
- (F) Whether it is or is not in violation of the counterfeiting or forgery laws of any jurisdiction.
- (G) Whether or not it was made recently or many years ago, except as provided under Section V, Subsection (A).

V

EXCEPTIONS

- (A) Banned items shall not include restrikes or impressions actually struck during or prior to the Nineteenth Century with one or two genuine dies, such as the 1787 Fugio "New Haven" restrike, the Haseltine Confederate Cent restrike, the Scott Confederate Half Dollar restrike, the Copper Company of Upper Canada restrike, the 1783 Washington Draped Bust restrike, provided that appropriate descriptive language is used in any written description of such pieces.
 - (1) Caution: Original strikings or restrikes made from dies which are not genuine remain banned items, such as those made from Bolen, Robinson, Wyatt, Dickeson, Becker, Idler, and similar dies.
 - (2) Caution: Pieces struck from transfer dies produced from genuine dies are banned items, not being genuine restrikes.
- (B) Banned items shall not include fantasies, restrikes, copies, or impressions actually struck by Mint employees from dies made at an official Mint, whether authorized or unauthorized, or whether struck within or outside the Mint, unless ownership is illegal for a private collector. If not struck by such Mint employee this exception shall not apply.
- (C) Banned items shall not include counterfeit, altered, spurious, imitation, or evasive coin, tokens, or paper money made for the purpose of circulation as money at the time generally similar genuine pieces were in circulation as money, unless ownership is illegal for a private collector. If appropriate descriptive language shall not be used in the written description of any such piece, this exception shall not apply.
- (D) The customary reissue from time to time of medals (which term does not include coins) by the original maker or his successors shall not be a banned item, unless in excess of a limit announced in writing. Medals shall not be considered in general imitation of previously made medals if they are part of a series made by the original maker or his successors.
- (E) A photograph or other similar two dimensional pictorial representation of a numismatic item shall not be considered as a banned item, except that pictorial representations of paper money other than photographs shall be banned items unless published as a physical part of a written text.

VI

UNDESIRABLE PRACTICE

Selling, advertising for sale, offering for sale, manufacturing or procuring the manufacture of any banned item, having knowledge of its status as such,

shall be an undesirable practice. Mere ownership or possession of a banned item shall not be an undesirable practice.

VII

DENIAL OF PRIVILEGES

Any person, firm, or corporation (including any person participating in the management of any such firm or corporation) committing an undesirable practice as above defined, after the adoption of this code by any numismatic organization may be denied membership in or be expelled from membership in such organization, may be denied the privilege of attending any meetings, auctions, and/or activities of such organization or may be cited or suspended in such manner as such organization shall see fit.

After the adoption of this code by any organization, it may deny bourse privileges to any potential licensee who has committed an undesirable practice after the date of such adoption, whether or not such potential licensee is a member of such organization. After such organization has granted bourse privileges to a licensee by a contract subject to this code and an undesirable practice is thereafter committed by such licensee anywhere, the rights of such licensee may be terminated without obligation of such organization to refund any payment collected.

Unless such organization shall determine otherwise, any disciplinary action above set forth shall be taken only after written notice to the party involved is delivered in person or sent to his last known address, with an opportunity for an immediate reply. Unless such organization shall determine otherwise, disciplinary action may be taken by any two of its officers or directors on its behalf. All other procedural matters, including reinstatement, shall be determined by such organization.

It is recommended that any such organization promptly release news and information as to any of its disciplinary actions so that other numismatic organizations may become aware thereof.

VIII

ADVERTISING

Any person, firm, or corporation (including any person participating in the management of any such firm or corporation) committing an undesirable practice as above defined may be denied the right to advertise in any numismatic publication after the adoption of this code by such publication or by the organization sponsoring such publication.

COLLECTOR TO NUMISMATIST

Address Given May 7, 1962 before the Cape Fear Coin Club
As Its Participation in the Fayetteville, N. C., Annual Arts Festival

I must have started collecting early in life, for even before beginning school I had obtained several childhood diseases, a very loud voice, many scars and abrasions, a relapse of the fidgets, several layers of dirt and enough curiosity and strength to tear up all my toys to see how they were made. After entering school, a few other things were added to the above, such as beetles, spiders, toads, a hoot owl, a pet squirrel, the ill-will of the neighbors, some black eyes, a few falls, a chew of tobacco followed by a deathly nausea, and finally a family that was upset wondering what I would be — man or beast. About this time I was old enough to claim a "sweetheart" and began to be a little suspicious that all was not well with this old world for sure.

Dr. Bolt

About this time (1913), my grandfather died and my father became administrator of the estate. My father found several coins in grandfather's trunk and thus I became the proud owner of my first coin collection — a half cent, couple of large cents, two cent piece, three cent piece, half dime, and one 1828 quarter. To earn these coins, my father required me to write a short essay about each. My only regret is that I did not make copies of the short articles, as I never knew what happened to them after my father read them. No doubt they would be very valuable collector items now, especially to me.

School days from 1913 through 1926 left very little in a young collector's small budget. A kind cashier in my home bank presented me with the so-called "junk box" which contained odd, curious, damaged and off-centered coins. During this time, I relieved several banks of their "junk boxes" and derived much pleasure from these coins or odds and ends. All were different and probably held stories that would fill many books. However, these "freaks" were never placed with my regular coins, which were my pride and joy. I felt ashamed of these "freaks" but found out many years later that such coins had an important place in numismatics.

Why collect or have a hobby? This is a question that has been asked me even in the profession of medicine. We need a diversion from the strain and stress of our routine work or profession of earning a living; something which is restful and coated with the meringue of pleasure. This makes for good mental health which is good preventive medicine. The definition of a hobby gives you the answer: "It is a favorite occupation, subject, topic, or the like, pursued for the amusement, pleasure, or interest it affords." It gives you something extra not usually found in our routine daily grind of making a living. What a person collects makes very little difference, but a hobby which delights a person is the surest key to that person's inner self. Many people have become more efficient in their professions as well as experts with their chosen hobby.

Coin collecting gives you pleasure, amusement, and interest, but it also has an added advantage of creating an estate over a period of time. Never begin with this thought in mind or you will defeat the very purpose of having a diversion or hobby. I dare say the thought of acquiring an estate enters very few collectors' thoughts until years later.

The young collector might be interested in some of the changes which have occurred over the last fifty years. The young collector of 1913 had very little help within his reach. *The Star Rare Coin Encyclopedia* by B. Max Mehl which cost one dollar was obtained where budgets could afford this sum. Seldom were any coins bought, but many hours were spent in study and building air castles.

Coins were usually collected in dated series or sets, trying to obtain a specimen in the condition that the pocketbook could afford. Even though some

might afford more, no collector ever attempted to corner the market on a particular date or set. Each seemed to want another collector to have the same pleasure of ownership. The contrast is apparent now.

Several definite trends came along a few years later — the “proof set craze” followed in a few years by the “roll craze.” This brought two words into the hobby that were associated years ago with the financial world only — “investment” and “speculation.” Many began to buy coins simply to speculate with and for investment, with no thought of deriving that pleasure, amusement, or interest once desired. There were many who have come into the field with only one thought in mind — to make money! This type must be watched very carefully.

There are always some who are very eager to get rich quick. This type of greed causes many fakes, counterfeits, frauds, etc., to be put on the market. Many collectors have been taken for a ride by some crook who sold him a coin which later proved not to be the genuine article. Frequently, the crook is gone or you are too ashamed to do anything about the transaction. Buy your coins from a reliable dealer who is an expert in the field and will stand behind the article. There are several dealer organizations which have certain standards to maintain and for the protection of the dealer as well as customer — PNG and RCDA are examples. There are probably many independent dealers who are reliable and dependable but you can only find this out with experience.

The growth of numismatics has been so rapid in the last few years that many more full time dealers have entered the field as well as collectors. Many pieces of old Americana have been restruck or copied, to the detriment of numismatics. No doubt many in years to come will think they have the genuine article when it will be just a copy or restrike. Who will be able to tell a genuine or original from a copy or restrike? In Harold P. Newlin's book, *A Classification of the Early Half Dimes of the United States* published in 1883, page 17, we read, “The 1804 dollar has been restruck. The dies were not destroyed till the year 1860, and I believe the pieces were restruck from the dies upon two occasions, a short time prior to this year. Disgraceful as the fact is — true it is, that these pieces were restruck in the United States Mint by some of its employees, no doubt, for the purpose of speculation; and a restruck specimen now graces the Mint Cabinet, and is described in the most glowing terms to strangers, as one of the most valuable coins in the collection, worth no doubt, a thousand dollars. The custodians of the collection know full well that their piece is a restrike, for I am indebted to one of them for this information. I wonder that they allow the piece to remain, testify as it does, to the past queer doings of the Mint.

“The 1827 quarter has been restruck. The 1823 quarter is struck from the altered die of the quarter of the preceding year, and possesses no characteristics of its own. The 1802 half dime is open to none of these objections. It has never been restruck. The dies were made for that year and were destroyed. I have seen many dangerous counterfeits of the 1804 dollar and of the 1823 quarter, but never have seen one of the 1802 half dime.”

I am quoting the above to show that our Mint used to do such disgraceful tricks. Today it seems that a few dealers obtain some dies, etc., and turn out the same type of disgraceful material. Numismatics is a science and should be kept clean and above reproach. There will be some who will disagree, but such practice deteriorates valuable pieces of Americana.

Another phase which has appeared in recent years is the production of medals by various groups. This is not so objectionable to numismatics since it is the science of the study of coins and medals. Each group has a certain historical appeal to various collectors. No one has to collect every series, but one can collect a particular series and derive pleasure as well as beneficial knowledge from it. Still another benefit might result by causing the whole field to level off price-wise and become more stable. Also, we have many expert engravers who will get a chance to exhibit their skill upon these pieces.

Recently, I have noticed that some collectors turn into dealers at conventions. The old collector never thought of this, but usually would choose a reliable dealer to dispose of a part or all of his collection. The young collector's excuse is that he “must sell some so that he can buy more.” The contrast here is that the collector of the old school bought only what he was able to pay for, and held on to his coins with great pride and satisfaction.

Another observation is the appearance of various gimmicks (as some would call them) of over-dates, over-mint marks, oddities, die breaks, etc., found by various collectors and dealers. Some of these are legitimate and are described with sincerity. Others will be discerned with much difficulty even by high power lenses. The great increase in dealers and collectors with the scarcity of material has started all parties to studying available material more carefully.

Most young collectors like some advice from collectors of the old school. This is something I always hesitate to give in a rapidly changing field, but here are a few I usually give:

1. Collect what you want to that affords the most pleasure, be it stamps, coins, tokens or medals. You are the one to enjoy it.
2. Collect the best that you can afford as this gives added pride also. Good material can always be disposed of easily.
3. Limit your field (unless you intend to become a dealer). Complete date series require time, capital, and patience.
4. Join a local, as well as a regional club and the A.N.A. You need the literature to increase your knowledge.
5. Attend two or three conventions each year. Here you will meet other collectors and learn the art of exhibiting.
6. Try writing an occasional article for the literature. You can always help another fellow collector.
7. Beware of cheap key coins always. These may be fakes, counterfeits or copies.
8. Ride your hobby for all it is worth. You are the one to derive the satisfaction, the pleasure, the relaxation, the rest, and the happiness from it. Wealth is not an ultimate goal in life. No one yet has seen a casket with a pocketbook installed in it.

Pity those people who never feel the pleasure and pride of having a hobby, especially those who have reached the age of retirement. Many do not know what to do with their time; they are bored, dissatisfied, restless, and most unhappy. Such a person becomes a burden to himself and to his family — soon passing on to that heavenly garage. What a pity! Such a person could have lengthened his life, carried himself through desperate situations, and modified his many sorrows, if he had only had a hobby.

What will be next in the field of numismatics? Your guess is as good as mine, but I just want to stay around and see what is going to happen. In fact, I am somewhat like the fellow whose letter I copied from the *New York World-Telegram* April 28, 1960, as follows:

"In reply to your request to send a check, I wish to inform you that the present condition of my bank account makes it almost impossible . . . due to federal laws, state laws, county laws, city laws, corporation laws, liquor laws, mother-in-laws, brother-in-laws, sister-in-laws and outlaws.

" . . . I am expected to pay a business tax, amusement tax, school tax, gas tax, carpet tax, income tax, furniture tax and excise tax. Even my brains are taxed . . . and get a business license, car license, hunting and fishing licenses, truck license, marriage and dog licenses.

"I also am required to contribute to every society and organization; to women's relief and gold diggers' relief; to every hospital and charitable organization in the city, including the Red Cross, the black cross, the purple cross and the double cross.

"I am required to carry life insurance, property insurance, liability insurance, burglar insurance, unemployment insurance, compensation insurance, accident insurance, business insurance, earthquake insurance, tornado, old age, and fire insurance. . . .

"The only reason I am clinging to life at all it to see what the hell is coming next." — DR. CONWAY A. BOLT, A.N.A. No. 7351

At the New York World's Fair there were a great many of the small hand operated machines, where for a small fee (usually ten cents) your coin would be pressed between two metal rollers so that it became elongated into an elliptical shape, about 19 x 38 mm. The die cut into one of the rollers impressed a raised design on one side of the coin. Although the other side became perfectly flat, generally a distorted image of the original coin remained visible, as shown by the 1924-D cent illustrated at bottom center of Plate XVI.

Exhibitors at the November 29 meeting of **Pittsburgh Numismatic Society** were: Harry Bartley, John Booth, Joseph Breyer, Prosper DeVos, G. Dohrill and Phil Williams. Among the unusual exhibits were 1892 and 1893 Columbian half dollars with re-cut dates, patterns of the 1948 coins of French Colonies, a group of a hundred foreign transportation tokens, and tickets and passes issued by railroads, etc., of the Pittsburgh area in the early part of this century.

At the December 27 meeting, a panel consisting of John Booth, Joseph Breyer, Ray Byrne, George Dunay and Duane Feisel, with Harry Bartley as moderator, answered questions and discussed "Displaying, Housing and Insuring Your Collection." After written questions were finished, the audience took an active part with oral questions. BARTLEY, Corr. Sec.

Fifteen-year-old Steve Carasela showed an almost complete set of the Columbian exposition wooden medals, and Fred Rosenthal exhibited an early note issued under the hundred-year-old National Banking Act. — FRED N. Mrs. E. Carolyn Nestruck, secretary of the Society for International Numismatics, spoke on Chinese cash coins at the January 21 meeting of the **Santa Barbara Coin Club**. She explained that most of her coins had been acquired from "junk" boxes but, since the recent publication of a catalog of them, they are now hard to find among the junk. Prior to this catalog, good reference books were hard to find and quite expensive. She said that these coins are divided into classes as ancient, being those issued before 618 A.D.; medieval, from the Tang (618) to Ming (644) dynasties; and modern, issued from 644 to 912. Cash coins have no dates on them and a collector must identify the period from the Emperor's nom de plume, so to speak. They are round with a center square hole, put there to facilitate stringing the coins for carrying them. The purpose of making the hole square was so the coiners could put the cast pieces on a square rod to hold them firmly while projections were filed off. Mrs. Nestruck stated that almost every province made its own coins, and even some cities and merchants made coins. Her talk was illustrated by two cases of pieces from her collection. It was announced that the date and place of our fifth annual convention had to be changed to June 22 and 23 at Earl Warren Park in Santa Barbara. — GWEN SENTIS, Sec.

The Nation's Capitol Coin Club held its first meeting, with several prominent numismatists among the ninety-four in attendance, on February 4 at the Smithsonian Institution. Ward Russell was selected interim President and Dorothy Giedler is Secretary, while Buddy Rosenberg was made Chairman of the Board. Both Russell and Rosenberg are past Presidents of another numismatic group in the area. In keeping with one of the Club's policies, Orleans mint silver dollars were available to members at face value. A combination game and auction,

called "Action," was demonstrated and proved interesting. A numismatic item is described and the asking price is named last, then the first person raising his hand receives the item at the asked price. One lucky member acquired a choice 1903-O silver dollar for \$12.50 in this manner, and another obtained an uncirculated Sesqui, half dollar at \$7.50. Adolf Bondy donated display cases of his own design to the Club for use at meetings. Nearly a hundred members and guests attended the February 15 meeting of **Big Spring (Texas) Coin Club** at the Crawford Hotel and enjoyed a most informative talk on silver dollars by Mrs. R. L. Nall. Her talk started with the year 1300, when Count Von Schlick captured the St. Joachim thal (valley) in Bohemia, in which there were silver mines. Since the natives would not accept silver ingots for their products, he coined a silver disc which became known as a "joachimsthaler." This was shortened to "thaler" and became the term for large silver coins in many countries, including the English spelling "dollar." She went on with the beginning of our own silver dollars, giving us the benefit of her research into the background and history of our modern coins. The Club voted to second the nomination of P. K. Anderson for president of A.N.A. Exhibits were by Floyd Trantham, Victor Barlow, Dan Kester, Marvin Britton and Miss Elsie Crieghton. — MRS. LEE SANDERSON, Sec.

Byron said that a complete proof set would include twenty coins, in addition to which there were three proof restrikes. He pointed out that there are a number of varieties of some coins of 1873 but that several are so rare as to be uncollectible to the average numismatist. Then there were thirty-four trial pieces that year, seventeen in copper and seventeen in aluminum, and a number of varieties of several pieces. In all, the average collector might acquire over a hundred different pieces of 1873 that were intended for circulation, making it an outstanding year in our coinage. — RONALD L. CALKINS, Sec.

At the February 4 meeting of **Buffalo Numismatic Association**, Jess Taylor gave the lecture on "Coins of Early Christianity," accompanied by slides of these coins. There were forty slides in

the set and Jess exhibited the following coins: shekel of Israel, a silver and a gold tribute penny, gold stater of Alexander the Great, mites of Herod Agrippa I, Alexander Jannaeus, Pontius Pilate and Judas Aristobulus, tetradrachm of Hercules Melkarth, and a tetradrachm with Caesar Augustus on the obverse and Tiberius Caesar on the reverse. Even those who lacked interest in the coins enjoyed the history given in the talk. — JAMES BARWELL, Sec.

A record number of members and guests of the **Key City Coin Club** turned out to see the new meeting place in the plush Paradise Room of the Sands Motel in Abilene. The large attendance of Junior members was pleasing since one of our goals is to interest boys and girls and help them become collectors. Member E. P. Thomas presented an analysis of prices of Lincoln cents, charting them on a black board and projecting future prices of the "key" coins. We plan to have several such educational talks during the year for the special benefit of beginners. It was decided to hold our third annual coin show on July 5-7 at the Sands Motel, with President D. R. Pratt as chairman. Prizes will be offered for displays to be made by members, and some forty bourse tables will be available to dealers. We expect to make this the largest show in West Texas and have adopted the theme "Become a Numismatist — Not Just a Collector — and Enjoy Your Hobby More." Inquiries may be addressed to the secretary, Baird, Texas. — PAUL WASHBURN, Sec.

About sixty members and guests attended the January 22 meeting of **North York Coin Club** and enjoyed movies made at the Christmas party by two Junior members. There was considerable discussion and planning of our coin show to be held March 30 at the North York Community Hall in Willowdale, Ontario. Mrs. Winifred Mather displayed the famous Andorra crown, and Ted Merner made an unusual showing of silver dollars, plus a very nice display of half dollar varieties. — SELBY O'BRIEN, Editor.

The **Lafayette (Ind.) Numismatic Society** has set October 12-13 for its fall coin show, to be held in the Central Catholic Gym. Dealers and exhibitors may contact General Chairman Kenneth McCord at 536 Main St., Lafayette, Indiana. — NELSON BOYD, Publ. Chm.

The **Missouri Numismatic Society** will hold its fourth annual St. Louis coin Festival at the Statler Hotel on August 3-4. April 7 is the date of the exhibition to be held by **Coos County Coin Club** in the Courtel Coos Bay in Coos Bay, Oregon. To avoid crowding, only eighteen bourse tables will be sold, at a fee of \$5 each plus one door prize donation. There will be a dealers' trading session at the Courtel on Saturday evening. For bourse reservations and rooms, write to Ralph Crume, Courtel Coos Bay, and for other information to Felix Duke, 562 North Broadway, Coos Bay, Oregon. — RICHARD ADAMSON, Publ.

Members of the **Steel City Coin Club**, sponsored by Local 2604 of the United Steel Workers of America, have made final plans for a coin show on May 25-26 in the C.I.O. Hall in Lackawanna, N. Y. Doors will be open at 10:30 a.m. Saturday and noon Sunday, closing at 9 p.m. both days. General Chairman is Ralph Maltby, and Bourse Chairman is George McCoy, 5929 Broadway, Lancaster, N.Y. The public is invited to see the wonderful display of coins and paper money without charge, and to register for the drawing of silver dollars hourly. Plenty of free parking space is assured. — WALTER K. BESECKER, Sec.

In spite of winter's worst, snow and sub-zero temperatures didn't seem to keep people from the sixth annual open house sponsored by **Muncie (Ind.) Coin and Stamp Club** on January 27. Some 1200 went to the show in the Student Center of Ball State College, where the **Indiana State Numismatic Association** will hold its May 17-19 convention. The fifty-two bourse tables and the afternoon auction were well patronized. Coin exhibit winners were Ed Lee, Frederick Claffey (two awards), Francis Keith, Leo Terry, and juniors Jack Lee and Grant Aufderhaar. Best-in-Show went to Ed and Jack Lee, while the most original and best described exhibit award went to Donald Coleman. In the stamp section, junior exhibitor Myron Huffman swept all classes with six first prizes for his eight exhibits. Judges were Charles Alber, Marvin Carruth and E. D. Main. Co-Chairmen of the successful event were Howard Creps and George

McKnight, with the over-all coordination of President William Irwin. Harry Shroyer handled the auction arrangements, and Darrell Miller was responsible for exhibits.

The **Eagle Coin Club of New Haven** will hold its annual Southern New England Spring Festival of Coins on May 11-12 at the Eagles Hall, 270 Crown St., in New Haven, Conn. In an extensive publicity campaign, releases of this news are being sent to over a hundred coin clubs, as many radio stations, and a hundred and fifty newspapers. Taking a pointer from last year's show, we are having fewer but larger bourse tables. There will be exhibits of priceless numismatic items, give-away prizes including a \$50 gift certificate, and an auction of choice material. Pinkerton protective service will be provided from Friday evening until the festivities close on Sunday. A superb home style banquet will be held in the downstairs hall on Sunday, complete with entertainment. Further information may be obtained by writing to Dorothy Marino, Secretary, Eagle Coin Club of New Haven, 41 Whalley Ave., New Haven, Conn. — DOROTHY MARINO, Sec.

The big news for collectors in the southwest section of Houston is that the **Bellaire Coin Club** held its initial meeting on February 19 at the Southwestern Savings Association office and elected the following temporary officers: President Don O'Neal, Vice President Roy S. Cummings, Treasurer J. Thomas Pope, Secretary Aline Manning, and Sergeant-at-Arms Bill Wiesner. The Club's purpose will be to assist and encourage amateur collectors in the "eight to eighty" age bracket. The thirty charter members are grateful to J. F. Johnson, who presided at the organizational meeting, for his invaluable guidance. — ALINE MANNING, Sec.

The ballroom of the Abraham Lincoln Hotel in downtown Reading, Pa., will be the scene of the **Reading Coin Club's** third annual coin show, the weekend of November 22-24. Plans call for bourse dealers to set up the morning of the 22nd and the doors to open at noon, after ribbon cutting ceremonies. Closing will be at 6 p.m. Sunday. Applications for bourse tables, at \$35 plus \$2 case rental, must be made before September 30 with Bourse Chairman Raymond L. Everhart, Box 273, Reading, Pa. — CYRUS G. RHODE, Gen. Chm.

The study of numismatics among members was furthered at the January meeting of **Milwaukee Numismatic Society** when James Buchbinder generously donated three excellent books to our growing library. The books are: *Coins of the World, 20th Century* by Wayne Raymond; *Chats on Old Coins* by Burgess; and *Evans History of the United States Mint*. The objective of our librarian during 1962 was "more books for more members," and his annual report indicated the goal was reached. Forty-three books were donated and thirty-four members borrowed 123 books for the highest circulation in our history. A surprise book award was given to Alex Wittleff, who borrowed the most (fifteen) books. Our 1963 officers are: President Robert Kellner, Vice President Charles Optitz, Secretary Myrtle Swain, Treasurer Anthony Trame, Sergeant-at-Arms Alex Wittleff, and Librarian Walter

Boeyer. Outstanding displays are interesting and informative, and help to attract new members. Charles Opitz, Gale Highsmith and Charles Heller pooled their pieces of Bryan money to create a large and unusual display. The pieces were in silver, lead, type metal and white metal, and the history of these items was related by Opitz. James Buchbinder exhibited 1936 copies of *The Numismatist* and broken bank notes shown in articles by D.C. Wismer. Elongated cents and nickels, shin plasters, Fuchtwanger and Fugio cents were displayed and explained by Charles Heller. Walter Boeyer displayed and spoke on glass medals of Hitler and other German leaders, which were sold in sets for the Nazi Cultural Fund. A 1480 double briquet coin of Brabant created unusual interest. — WALTER BOEYER, LIBRARIAN

Five hundred members and guests attended the **Arkansas Numismatic Society's** first quarterly meeting of 1963 on February 2-3 at Velda Rose Motel. Dr. J. R. Luten, Jr., president of the host **Tri Lake Coin Club** of Hot Springs National Park, presided. Mart Thornton was chairman of the thirty table bourse, and there were two auctions. Art Lovi of Pensacola, Florida, was a distinguished guest and displayed his monies of the world. This display, which has won many awards, is the only one of its kind and is beautifully mounted in such a manner that both sides of the material can be seen. Exhibit awards were given in six categories, the most unusual and outstanding one being submitted by Robert Burgess of Little Rock. Matt Rothert gave a report on the Confederate bill collection given to the Society by Harry B. Solmson of Memphis, Tenn. To date around \$600 has been donated toward housing this collection in the Old Capitol Building, with the assistance of the Arkansas History Commission. Charles Lakosky, a former special investigator and police officer, and holder of twenty-seven medals, recently joined the Society. Our next meeting will be May 11-12 at the Lafayette Hotel in Little Rock. — HAZEL LINDSTROM

The **San Jose Coin Club** has appointed two of its members to the generalship of two of California's largest coin shows, both to be held in San Jose only a scant six weeks apart. Eldon Beaulieu, long associated with the Wells Fargo Bank

and a collector of renown, will have charge of the **California State Numismatic Association** convention April 18-21 in the Civic Auditorium, Eldon, whose address is 785 Harding Ave., San Jose, states that bourse space has been sold out long ago and literally hundreds have been turned away because there is ample space for only 110 tables. The second event is the **Coast Counties Coin Carnival**, to be held in the same location May 31-June 2 under the direction of John Cobb, 23217 Lisa Lane, Mountain View, Calif. Cobb, a nuclear physicist with Lockheed Aircraft, has had the same experience with dealers wanting space, and expects the two shows to draw huge attendances of coin enthusiasts to San Jose. — DENIS N. HOOKER

About sixty members and guests attending the February 24 meeting of **Evansville (Ind.) Coin Club** heard an outstanding lecture on "Regular and Odd-Shaped Coins of the Twentieth Century." Dr. Leland Moon used A.N.A. colored slide set No. 21 to illustrate these minor foreign coins. Among the reasons given by Dr. Moon for the odd-shaped coins were to discourage counterfeiters, to differentiate the coins between countries, and for esthetic reasons. Attendance at our meetings the fourth Sunday afternoon monthly at the Museum of Arts and Sciences is improving, and we are especially pleased at the increased interest shown by junior members. — BETTYE J. KLAUSS, Sec.

The **White Plains Coin Club** elected the following officers at its January meeting: President Carl Hitzel, Vice President Robert Armond, Secretary Richard Apgar, Treasurer Joseph Manganello, and Corresponding Secretary Marion Zimmer. A cordial invitation is extended to numismatists to attend our meetings the first Wednesday evening monthly at the ROMA A. C. on Ferris Ave., in White Plains, N. Y. — RICHARD C. APGAR, Sec.

Nearly one hundred attended the February 13 meeting of the **49er Coin Club** in the Recreation Hall, Bullis and Century, in Lynwood, Calif. Kenneth Young spoke on the Chinese dollar and augmented the talk with an excellent display of Chinese coins. President Featherston plans many innovations for our future meetings. — MRS. LILA M. BARRETT, Sec.

ADVERTISERS PLEASE NOTE ALL FOLLOWING CONDITIONS

All correspondence relating to advertising should be addressed to the Advertising Manager, S. W. Freeman, P. O. Box 591, Newport, Ark. Make all remittances payable to the American Numismatic Association.

No advertising accepted from minors.

Advertising Contracts: These are available, covering periods of three, six and twelve consecutive months for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

References: All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

Available Space Units: Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space (subject to any current limitation) is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Advertising Manager.

Unless under contract, smaller units than one-half page accepted subject to available space in desired issue.

Deadline: Copy must be received by the Advertising Manager by the 5th of the month to insure insertion in the following month's issue.

Illustrations: All cuts to be provided by the advertisers, care being used to see that they do not exceed in measurement the limits of the space unit desired. The Advertising Manager, when absolutely necessary, will have engravings made from furnished photographs, at national rates, to be paid for by advertiser.

We cannot accept mats or stereos.

Miscellaneous: Please furnish copy separately from your letter of transmittal. Advertising copy included in the body of a letter usually has to be retyped for the printer; this should not be required. **Mail Bid Sales listing not acceptable.** It is also the policy of the magazine to limit its advertisements to those of numismatic character.

Preparation of Copy: Advertising copy should be prepared with minute care. Carelessness invites error — something which both advertiser and publisher are anxious to avoid. Use only one side of the sheet. Send originals, not carbon copies. Use only paper of good quality, and not of extremely light weight. All copy must be typed, no handwritten accepted.

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 5th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved.

Precision molding of **WATER-CLEAR** Polystyrene to close tolerances permits easy filling or removing of standard count rolls; no shifting or rubbing. **POSITIVE-SEAL** cap eliminates "air-resistance" and assures moisture and dust-proof protection. Discoloring elements are not only kept out, but more important, the **CHEMICALLY INERT** material never deteriorates, shrinks or releases harmful agents to tarnish your coins.

THREE RARE ENGLISH COINS

We offer to Numismatist readers, three of the lowest mintage English coins of the past century . . . the 1956 farthing, the 1950 penny and the 1951 penny. All coins are sold as per the usual Empire guarantee: satisfaction or immediate refund. Quality makes an important difference with Empire. We trade conservatively and conscientiously . . . hence have fewer than 1% of the coins we ship returned.

A Few Words about the English Coin Market

Since the days of Victoria, England has issued an attractive series of coins in various copper, silver and gold denominations. Like its counterpart, the Canadian series, each coin bears the portrait of the contemporary monarch. There are few mintmarks to contend with . . . for example, a set of farthings complete from 1902 to date contains just one piece of each date. A set of pennies of the same date range contains just five coins with mintmarks. The designs of English coins are beautiful. If you consider the coins of Canada from Victoria to Elizabeth to be attractive, you will find the coins of England to be equally beautiful.

There is one important thing which differentiates the English series from the United States and Canadian series . . . price. Until just a year or so ago, few persons paid any attention to English coins. The vast majority of collectors in England were preoccupied with Greek and Roman coins or early English issues. As a result the collecting of farthings, halfpennies, pennies, etc. by date and mintmark was neglected. There were no roll or bag collecting fads in England, hence coins only a few years old are rare in many instances. In fact, until recently, there was no readily available book listing mintages and English coins by dates and mintmarks.

All of this is now changing. Within the past year books have become available covering the English series. Excellent publications have been released by the Coin and Currency Institute ("Coins of the British World"), Whitman Publishing Company ("Guide Book of English Coins" by Ken Bressett) and Somer James of Regency Coin Co. (the newly published combined "Guide Book of Canadian Coins and British Coins"). Albums and folders are being prepared and some of these are now being marketed. Interest in the English series is growing by leaps and bounds. At the present time English prices are in their infancy . . . similar to Canadian coin prices of 10 years ago and U. S. coin prices of 20 years ago. Rare coins can be purchased for nominal sums. Complete sets and investment groups of rarities may be obtained in choice condition priced cheaply. Prices are rising month by month. We are now paying over our selling prices of a few months ago to buy certain issues. Our large stock of English coins, acquired over a period of years, is rapidly being depleted . . . and we do not know where to replenish it. Recent trips to England by members of our firm have not turned up any quantity lots. In fact, the prices over there are sometimes higher than over here. We were quoted 5 shillings each (70¢) as a wholesale price for us to buy 1956 farthings from an English dealer. Other dealers in English coins have placed large orders with us . . . just the opposite of the situation a year or two ago.

If you contemplate collecting English coins or investing in them, NOW IS THE TIME TO DO IT! Prices are at a fraction of those charged for comparable U. S. and Canadian issues . . . to verify this for yourself, compare mintages and selling prices of U. S., Canadian and English coins for yourself. The extremely low relative prices of English coins become immediately evident.

We offer below three of the most popular and most rare English coins of this century. It is an opportunity which might never be repeated again. In our opinion, the day will come when buying a 1950 English penny for \$3.00 will be an "old timer's tale" . . . similar to the stories we hear and nostalgically recall of the days when 1909-S V.D.B. cents were a few dollars each, 1931-S cents were \$4.00 BU (we sold a cigar box full of BU 1931-S cents at \$4.00 each a few years ago). The coins offered below are rare. 1950 and 1951 pennies were released into circulation, not saved by the rolls and bags. These are even scarcer than the mintage figure would indicate. Many 1956 farthings were melted, making it rarer also.

Note: While we have a fine selection of English coins for sale, we are also interested in buying English coins and will pay fair prices for them, well over catalog in many instances. If you have English for sale, see Empire first.

1956 English Farthings

1956 Farthings. The KEY twentieth century English farthing. By 1956 the farthing had little purchasing power, so it was decided by the British government to termi-

nate the series. To begin with, fewer farthings were minted in 1956 than in any other year since 1892 . . . a span of over 60 years! Only 1,996,800 pieces were minted. The great bulk of this issue was not released. With the Royal decree demonetizing the farthing and authorizing its general recall, most of the 1956 issue was subsequently melted. We have just purchased a small hoard of 1956 farthings, probably the last remaining such group that will ever come on the market. We offer them to our clients at prices which do not reflect their true scarcity. This may well be your last opportunity to purchase a quantity of these rare pieces at a low cost. We offer really select choice BU pieces. Our price for select BU pieces is less than the catalog value for EF pieces! We have priced them attractively, so they should sell fast. Once they are gone the opportunity will be lost.

Select BU 1956 farthings . . . the rarest date since 1892!

65¢ each. Minimum order: 10 pieces; Maximum order: 1,000 pieces.

1950 and 1951 English Pennies — We can deliver!

We can deliver. As this ad goes to press, we have over 500 1951 pennies on hand and close to 1000 1950's . . . a remarkable inventory of these rarities.

The 1950 and 1951 English pennies have mintages for circulation of 240,000 and 120,000 pieces respectively. The coins are even rarer than these low mintages indicate as, unlike the U. S. where rolls and bags have been saved during the past few decades, the 1950 and 1951 pennies were released into circulation. Many were released in the British West Indies where the salt air had telling effects on their condition.

These two English pennies have the lowest regular mintages for circulation of any English pennies of the past 100 years! These two coins are, without doubt, the most popular English pennies. The most popular U. S. cent is the 1909-S V.D.B. with a mintage of 484,000 pieces. Mintages considered, the 1950 English penny is *twice* as rare as the 1909-S V.D.B. and the 1951 is *four times* rarer. We grant that English pennies have a long way to go before they approach the popularity of the Lincoln cent, but we maintain that the difference in popularity is not as great as the differences in price would indicate. Assuming that an EF or better 1909-S V.D.B. cent is worth \$140.00, then on a mintage basis, a 1950 English penny, by comparison, would be worth \$280.00 and a 1951 would be worth \$560.00. The current prices of the 1950 and 1951 pennies are mere fractions of the above prices. A few years ago an EF 1923 Canadian cent (mintage: 1,019,002) could be purchased for a few dollars. Now it is a \$25 to \$40 coin. A 1909-S V.D.B. could likewise be purchased for a few dollars, now it sells for over \$100.00. During the past decade thousands and thousands of United States collectors have started to collect Canadian coins. In many areas the competition for a choice Canadian coin is just as intense as the competition for a choice U. S. coin. Anyone a decade or more ago who decided to purchase the rarest dates of U. S. and Canadian cents has made a windfall profit (and this is an understatement) since then.

We believe that the same thing is going to happen to the English coin series. The fact is, it is starting to happen now. When English coins are popular on a widespread basis the key dates, the coins which everyone will want, will be the 1950 and 1951 English pennies. Purchase them now and you will be in an enviable position then. Don't we all wish that we had purchased dozens of 1909-S V.D.B. cents when they were available in large quantities at a few dollars each?

A detailed catalogue of all Spanish and Spanish Colonial Onzas, or gold pieces of eight. Lists types and dates and initials of assayers.

Written in English and Spanish with dollar valuations.

1,000 numbered copies. Printed, on rich, large octavo paper with gold-colored photos of many coins.

Introduction and bibliography in English.

Highly recommended to collectors of gold coins in general, and especially to students of American numismatics because the onza was legal tender in America until 1857.

1848 "CAL." QUARTER-EAGLE

Issue of First CALIFORNIA GOLD to reach Government in East

In 1848, to verify the gold discovery tales, the Calif. Military Governor set out with his adjutant, Lt. (later famous general) Sherman for gold specimens from sites around the Calif. gold fields. Crammed in a tea container, 13 map marked samples were sent through the Panama-Isthmus route to the War Office in Washington with a report pleading help in the horrendous economic and military problems of the exploding California gold rush. With vision to the significance of the gold samples, the Secretary of War suggested the mint coin quarter-eagles of them with a distinguishing mark because, "... many may wish to procure specimens of coin made of California gold." Presumably struck in the native ore including platinum, silver and copper after parting silver for coin fineness, they must have stirred many an emigrant westward HO... (R. S. Yeoman's "THE 1848 QUARTER EAGLE WITH CAL." in SELECTIONS FROM THE NUMISMATIST - U. S. COINS, pp. 193-205, has further data).

Now in stock is a specimen with about half the eagle feathers, full LIBERTY and partial coiffure, a coin with even wear, appealing mellow color and pleasing over-all appearance — guaranteed genuine. The Kreisberg-Schulman "Golden Sale" auction one realized \$5900. Photo on request with references. (No phone calls, please.)

Please 2nd choices — Please add 25¢ under \$10 — 10% off purchase over \$200 excepting key coins.

BR. UNC. Unpolished (unhairlined) full mint frost and no wear and bright accustomed color. (Noticeable ifs, ands or buts grade coin lower.) "U." means borderline-Unc. "Weak" "Medium" "Nice" "Sharp" refer to sharpness of strike. General pricings 1/5 under book.

PROOF SET INFORMATION CARD — For beginners. Tells of the persons, legends, designs and history in current proof set coins. Folds to fit in mint envelope. The busy dealer may not always remember everything about the current coins or can take time to tell about them, so here's an information card to sell with the proof sets, to show new collectors things numismatists are interested in... 20¢ each; quantity prices for dealers.

COIN MEDALS . . .

The Magnificent Medals of Real Numismatic Interest

A series of beautifully sculptured, numismatically designed medals commemorating famous coin designers. The Augustus Saint-Gaudens and Victor D. Brenner medals, the first two in the COIN MEDALS series, are now ready for immediate shipment, and the Charles E. Barber medal will be ready in June.

COIN MEDALS are sculptured in very high relief on both obverse and reverse by master artist Robert Schabel, and quality struck by The Metal Arts Company of Rochester, New York. The obverse of every COIN MEDAL depicts the finest medallic work of the artist being commemorated, and the reverse, as shown above, symbolizes his work in coins.

COIN MEDALS are issued in bronze, and in a serially numbered pure silver issue not to exceed 5000. Each medal is three inches in diameter, and weigh close to a half-pound in silver, so they are not to be confused with ordinary coin size medals.

- The Victor D. Brenner Medal: Bronze \$5.50, or2 for \$10.00

COIN GALLERIES

PUBLIC AUCTION SALE

Coin Galleries first Public Auction Sale of the season will be held in the middle of May. The catalogues will be mailed about four weeks in advance of the date of the Sale. A nice selection of Foreign Gold Coins will be featured, particularly strong in the **English and French series**, with a small group of interesting **Italian pieces**. There will also be an offering of **early U. S. Silver Dollars, 1795-1803 and 1840-1872**. **Hawaiian Coins** are present in quantity, with some interesting and **rare patterns**. The Ancient section comprises **Greek and Roman silver and gold coins**, among which will be found a set of the **rare Aurei of Julius Caesar**.

The **Numismatic Review**, Volume IV, Number 1, was mailed at the end of the first week in March. It contains our usual wide selection of coins in almost every series from the Ancient to the Modern World. The feature article by the Editor discusses **fraudulent Hawaiian Patterns** of the 1883-1884 Series of King Kalakua.

A Selection from Numismatic Review, Vol. IV, No. 1

CUSTOMER COMMENTS:

"... Please send me as usual ... medium size kits. Thanks again for your always fine service. I can say your Brilliantize does more than people think about—it keeps copper coins B. Unc. for years to come. I have seen some cents Unc. but dark or gray color—and it surely brings back the original mint state—it also prevents many of the Unc. cents to acquire carbon spots—if they apply the Brilliantize when cents look like they begin to have minor carbon spots—it has preserved 98% of my B. Unc. coins from becoming dark and gray and heavy tarnished. I wonder if you don't advertise the good qualities of your product ... I have sold thousands of B. Unc. cents. I never had much trouble. Very seldom I had any complaints. Collectors appreciate coins when they are kept in mint state through using your Brilliantize." — Louisville, Kentucky.

"This is the best polisher and cleaner on the market. Less trouble and easy to do, and the coins look marvelous ..." Pennsylvania.

COINS AT WHOLESALE

Am overstocked on coins and to reduce my large stock of common U. S. coins I'll make up lots for \$25 or \$100 with each coin priced after I get order with payment. No lists but you have 30 day return privilege for full refund of purchase price of each coin. Priced about halfway between dealer's buying and selling prices. Very few coins after 1916 included. No late coins, proof sets or silver dollars included. Good buys for resale or investment. Trade U. S. gold for sets, key coins, rarities. Always glad to hear from those wishing to dispose of their holdings. No unc. rolls, mint bags or late proof sets wanted. Will not travel far to buy coins but will pay more to get them.
